Summary

As a Full Stack Developer, I am a master of digital craftsmanship, seamlessly blending creativity with technical prowess to architect immersive web experiences. With expertise spanning both front-end elegance and back-end robustness, I thrive on transforming concepts into captivating realities. From designing sleek user interfaces to engineering scalable server-side solutions, I am driven by a relentless pursuit of excellence. With a keen eye for detail and a passion for innovation, I am poised to tackle the challenges of tomorrow and leave an indelible mark on the digital landscape.

I am open to new projects, to share info and efforts and spread the news about this amazing technology, with the help of network and sharing ideas and projects.

Experience

Full Stack Engineer

Teravision Technologies May 2023 - Mar 2024 (11 months)

I played a pivotal role in driving the development of cutting-edge web applications from conception to deployment. My responsibilities encompassed both front-end and back-end tasks, allowing me to deliver seamless digital experiences that exceeded client expectations.

Freelance

CODECODIX, tech consulting, software developer and coding academy.
Oct 2013 - Present.

I Develop and maintain robust web applications, handling both front-end and back-end tasks. Design and implement user-friendly interfaces using Streamlit, HTML, CSS, and JavaScript frameworks like React, Angular, or Vue.js. Build scalable and efficient server-side systems and APIs using technologies such as Node.js, Python, or Java. Collaborate closely with designers, product managers, and other stakeholders to deliver high-quality solutions that meet client requirements. Troubleshoot and debug issues to ensure optimal performance

and reliability across all layers of the application. Stay up-to-date with industry trends and best practices to continuously improve our development processes and technologies.

Education

Holberton School

Full Stack developer, Software engineering Sep 2021 - Jul 2022 Immersive coding bootcamp, more than 2000 hours of coding, peer and teamwork knowledge and project development

Stack

Python: Django, Flask, Streamlit, Pandas, Pycharm, Django REST

JavaScript: NodeJS, React, Vue, Nuxt,

Java: SpringBoot.

MERN

PERN

Databases: MySQL, PostGRES, MongoDB, SQLite, NoSQL.

Github

Docker and Kubernetes.

Languages

Spanish native and english C1 level
